

I modified the code through “Vibe Coding”, Added test data creation with relevant role as per the domain. “Download Test Case” button added.

CHAT

ADD DOMAIN INPUT BUTTON AND CHECKBOX

The logging will help identify exactly where any issues are occurring. Try clicking the button again and check the console for any error messages!

After Feature file is created , Inspect and Generate buttons should be enabled only after "Reset Chat" is clicked

Install,Generate and Debug-Userstories-Testcase-Generator.md:3

Planned button behavior changes after feature file generation

I'll modify the logic so that after a feature file is generated, the Inspect and Generate buttons are disabled until Reset Chat is clicked.

Reviewed and updated chat.js and checked 3 sections +12 -0

Perfect! I've updated the logic. Here's what now happens:

Changes Made:

You've used 55% of your session rate limit.

CHAT

ADD DOMAIN INPUT BUTTON AND CHECKBOX

Feature file section should be visible with scroll bar. Right only 1 line is visible with scroll bar. Make it 6line

Install,Generate and Debug-Userstories-Testcase-Generator.md:3

Analyzed chat container styling for feature file visibility

I'll increase the height of the chat messages container so 6 lines are visible with a scroll bar.

Reviewed and updated sidepanel.css and searched for regex +1 -1

Done! I've updated the chat messages container styling to show 6 lines of the feature file with a scroll bar.

Change Made:

Added `min-height:350px;` to the `chat-messages` CSS which:

Shows approximately 6 lines of feature file content visible

You've used 55% of your session rate limit.

Scenario Outline: Login with valid South Indian user credentials

Given I open the Salesforce login page

When I type "<username>" into the Username field

And I type "<password>" into the Password field

And I <remember_me> the "Remember me" checkbox

And I click the Login button

Then I should be redirected to Salesforce dashboard

Examples:

username	password	remember_me
"ramesh.kumar@salesforce.com"	"Sales@123"	check
"kiran.m@salesforce.in"	"SFlogin#2023"	unchecked
"lakshmi.r@srf.com"	"IndiaSFI456"	check
